

Peace Silk and Sasawashi: The Future of Ethical Fabrics

Understand the Materials

- Peace silk: harvested without harming silkworms, retains natural sheen and softness.
- Sasawashi: Japanese fabric made from washi paper and kumazasa plant fibers, naturally antibacterial.
- Compare textures, durability, and eco-footprint of both materials.

Sourcing & Certifications

- Look for suppliers with GOTS, Fair Trade, or OEKO-TEX certification.
- Ensure transparency in ethical treatment and environmental standards.
- Prefer small-scale or artisanal producers for authenticity.

Best Uses in Home & Fashion

- Peace silk: luxury clothing, scarves, lingerie, soft drapes, and cushions.
- Sasawashi: bath towels, mats, slippers, skincare textiles with antibacterial benefits.
- Blended applications: mixing peace silk with other natural fibers for unique results.

Care & Maintenance

- Peace silk: gentle hand-wash or eco dry-cleaning, avoid harsh chemicals.
- Sasawashi: machine-washable, dries quickly, maintains texture.
- Store fabrics in cool, dry, and breathable spaces.

Ethical & Sustainable Value

- Peace silk: cruelty-free alternative for eco-conscious luxury consumers.
- Sasawashi: biodegradable and long-lasting, reducing textile waste.
- Supports mindful consumption and fair trade supply chains.
